

NORLOK EZ CLINCH™

Norlok is connecting with RIDGID®, and providing a battery powered clinching tool that can be carried anywhere in the shop and on the jobsite.

The RIDGID logo is a registered trademark of RIDGID, Inc. in the U.S. and other countries

- Single hand operation makes it easier to clinch in tough spots
- With a 7/8" throat and 1" opening, the EZ Clinch™ can get over the flange to make your part
- Full rotation of clinching head and inline design provides new clinching capabilities
- Capable of clinching up to two layers of .050" aluminum or up to two layers of 16-gauge galvanized steel

EZ Clinch™ integrates with the RIDGID® RP 340

INNOVATIONS IN ENGINEERING

EZ CLINCH™

Model: 80100J
Cycle Time: 9 cycles per minute
Opening: 0.80"/20.2mm
Tool Mass (Tool Only): 6.0lbs/2.73kg
Tool Mass (Connected to RIGID RP240): 14.3lbs/6.5kg

Minimum sheet metal thickness:
Two sheets 0.022"/0.56mm steel
Two sheets 0.024"/0.61mm aluminum
Maximum sheet metal thickness:
Combined thickness 0.120"/3.0mm steel
Combined thickness 0.090"/2.3mm aluminum
